## Crawley CHaMP's Electric Art Festival

Three Bridges Forum celebrates 100 years of Caroline Haslett's influence\* with an invitation to enter its art festival at the Hawth Theatre, Hawth Avenue, Crawley RH10 6YZ

**Entries are welcome from all Crawley residents and workers in any chosen art, written or technical medium, for exhibition during May 2019. We especially invite local schools, colleges, youth groups, clubs, societies, SME or Gatwick Diamond company employees to take part. Everyone is encouraged. Caroline Haslett would have been especially keen to see female electrical engineers involved.**

### **IF YOU PLUG IT, PLAY IT OR PROCESS IT, PLEASE PARTICIPATE**

There are six categories to ensure everyone who lives, learns or works in Crawley is eligible from age 5 to 100...If you are a YOUNG SPARK, RISING STAR, INSPIRED, AMBITIOUS, ACTIVE or EXPRESSIVE you have a free choice for any personal interpretation of CHaMP using 2 or 3D art forms, modelling, writing, CAD, 3Dprinting, on line research, paint, textile, mixed media, camera, pen, pencil, or word processor.

If you have been inspired by learning of Caroline Haslett's life and achievements from public displays, consultations, publicity or school/college events you may find these suggestions useful.

**Category 1...YOUNG SPARKS IN CRAWLEY...age 5-7, key stage 1 in schools, Rainbows or Beavers in guiding or scouting.**

My colourful pylon...bells and flashing lights...light before electricity...a new electric car...electric toys that need inventing...fairy lights and flashing signs...electricity for my pets...electricity in my life.

**Category 2...RISING STARS IN CRAWLEY...age 7-11, key stage 2 in schools, Brownies or Cubs in guiding or scouting.**

Making pylons beautiful!...electric gadgets in my home...electric bake off...fish and whale oil LED to today's lights...interplanetary propulsion...how our homes were, are and should be heated...kitchen design for these domestic control centres...what's electricity ever done for

plants?...cranes, diggers and movers, electronic bionic support...electro magnetism, light, heat, movement...the shredder...the microphone...the speed camera...future electricity.

**Category 3...INSPIRATION IN CRAWLEY...age 11-14, key stage 3 in schools and colleges, Guides and Scouts**

The aesthetic pylon of tomorrow...the life of Caroline Haslett...ways to spin dynamos...the G10 phone I crave...home entertainment using 3 pin plugs...how electricity grew in 20<sup>th</sup> century homes...electrical inventors, pioneers and promoters...the electrical invention I'm waiting for...archery to rocketry, the development of power transmission...electronic medical monitoring...remote control...binary and friends, the digital brain...electricity before and after humans...their first job, fake robot...can Caroline save the planet?

**Category 4...AMBITION IN CRAWLEY...age 14-16, key stage 4 in schools and colleges, Rangers and Explorers.**

Electrifying still life...printed circuits...Caroline Haslett's legacy...CHP, a good idea?...induction power...wireless personal entertainment...PA for events...biological electricity...lasers, macro to micro...robotics, servant and master...how I would electrify a festival or theatre stage...when I go with the flow what's currently happening?...the prize winning call or the taser, good and bad shocks.

**Category 5...ACTIVATION IN CRAWLEY...post 16 school, college and FE students, Rangers and Explorers.**

Electrical power production...micro circuitry...What would Caroline Haslett promote today?...super grid development...electronic hives, good or bad vibes?...product design to raise sales...nanometers...microwaves, cook or kill...superconductors...cost effective design...micro generators...graphene and friends in 2030...role of nuclear power...fewer wires...the ultrathin...utilising 3D printing...fluorescence in rocks, biology or gilets jaune...plugging a better socket, improving BS 1363.

**Category 6...EXPRESSION IN CRAWLEY...adult.**

Photography, the electrical scene around Crawley... the infra red or ultraviolet...pocket park planting plan incorporating the Dame Caroline white iris... Haslett themed sculpture design...design of or decoration for a Haslett heritage information panel...Drawing, painting or textile design inspired by CHaMP...rewiring Caroline's 3 pin plug in thread. The all electric F1 car, ferry or flight.

**Entries, size A4-A3 inc 3D, must be submitted to Crawley Museum, 103 High Street RH10 1DD by Friday 12 April** to be eligible for prizes, certificates, Hawth display.. Submissions remain property of and will be returned to the creators. Entries must identify creator, entry group, return contact address.

\*On 5<sup>th</sup> February 1919 Caroline Haslett became the first Secretary, and sole employee, of the newly formed Women's Engineering Society. To-day the WES remains a vibrant, active and influential organisation promoting women and girls in all aspects of engineering. Dawn Bonfield MBE, a recent President of WES and its first revival CEO since Caroline in the 1940's is Royal Academy of Engineering Visiting Professor of Inclusive Engineering at Aston University. She is an enthusiastic supporter of Crawley's CHaMP and who better to join the Mayor of Crawley on Tuesday 30<sup>th</sup> April to present award winners certificates and prizes from event sponsors.
