1. Introduction

- 1.1. The Infrastructure Funding Statement provides an annual summary of financial and non-financial contributions relating to Section 106 Legal Agreements (S106) and Community Infrastructure Levy (CIL) within Crawley, for the stated financial year.
- 1.2. It also includes an Infrastructure List, which describes infrastructure projects or types of infrastructure which the council intends will be, or may be, wholly or partly funded by CIL. The Statement also outlines the process that the council undertakes to allocate CIL receipts.

2. Terminology

Agreed – Contributions that have been agreed within a signed document. They may not have been received and if the planning application is not implemented, they will not be received.

Received – Contributions, either monetary or nonmonetary, received by Crawley Borough Council

Spent – Financial Contributions spent.

Committed – Contributions that have been received and have been formally committed to a live project but have yet to be spent.

Allocated – Contributions that have been received and allocated to an upcoming project but have yet to be taken through the formal Crawley Borough Council approval process.

Retained/ Uncommitted – Contributions that have been received but a project has yet to be identified. Funds have been carried over to the next financial year.

3. Developer Contribution Definitions

S106 Contributions

- 3.1. Section 106 of the Town and Country Planning Act 1990 provides that planning permissions may be granted subject to planning obligations, agreed between the developer and the local planning authority, which are set out in a separate legal agreement, often referred to as a 'Section 106 Agreement'. Obligations often take the form of financial or in-kind contributions towards the provision or improvement of infrastructure if a need is generated by the new developments. Financial contributions must be spent as set out in the planning agreements and in accordance with legislation.

Community Infrastructure Levy

- 3.2. The Community Infrastructure Levy (CIL) is a charge which can be levied by local authorities on new development in their area. It is an important tool for local authorities to use to help them deliver the infrastructure needed to support development in their area. CIL was introduced by the Planning Act 2008 and is governed by the Community Infrastructure Levy Regulations 2010 (as amended). It took effect in Crawley on 17th August 2016.

- 3.3. Regulations 2010 as amended, part 7 state that 15% of the total CIL contributions collected are to be allocated for spending in agreement with local communities. There being no 'parish' areas within Crawley, the contributions collected have been used to create a borough wide Neighbourhood Improvement Strand. The remaining CIL contributions are to be used for the Strategic Infrastructure Strand.
- 3.4. Crawley Borough Council CIL spend priorities, for strategic infrastructure, are based on Crawley's Infrastructure Delivery Schedule (IDS). The IDS is already in place through the Local Plan process and identifies infrastructure required as a result of the growth forecasts indicated in the Local Plan. Since CIL's primary role is to fund infrastructure that addresses the cumulative impact of growth, CIL resources are concentrated, as a priority, on the schemes identified in the IDS as being Critical/ essential to enabling growth.
- 3.5. The Neighbourhood Improvement Strand is distributed partly through the [Crowdfund Crawley](#) website. The community can post civic project ideas on the website and raise the necessary funds from the 'crowd', including a contribution from the Neighbourhood Improvement Strand for eligible projects.
- 3.6. Following a public engagement exercise in 2022, it was approved that the remainder of the Neighbourhood Improvement Strand be distributed directly to neighbourhood-level projects which score highly against the IDS criteria.

12. Total Amount of Money reserved for funding programme to 2029/30 but not spent during the reported year.

12.1. Specific allocations of CIL Strategic funding are made via the council's CIL governance process (appendix E). This operates by means of an Infrastructure Business Plan, approved by the council's Cabinet, which is subject to regular review. Eligible projects which have been put forward are scored against a set range of criteria, including their importance to the delivery of the Local Plan strategy. The CIL funding requirements of these projects are assessed against current and projected CIL income in order to set a five-year funding programme. 16 March 2022, Cabinet approved the proposed CIL strategic infrastructure spend priorities to end March 2025: [Allocating Monies Collected Through CIL PES388](#)

12.2. £2,255,050.72 of CIL Strategic Infrastructure Strand monies, have been reserved to deliver the following programme of infrastructure. Infrastructure Funding Statement
2022/23

- 12.3. 2 November 2022 Cabinet approved the proposed amendments to the allocation and governance of the CIL Neighbourhood Improvement Strand monies [PES/420](#). The governance for the allocation of the Neighbourhood Improvement Strand, has now been amended following a public consultation. £75,000 has been retained to continue the Neighbourhood Improvement Fund for a 3-year period, this will continue to fund projects delivered by community organisations through. The remaining Neighbourhood Improvement Strand contributions not committed to the Neighbourhood Improvement Fund would be used as a contribution to the delivery of a programme of neighbourhood improvement works identified as a priority by Crawley Borough Council, in the first instance, to the Unsupervised Play Investment Programme.
- 12.4. The precise locations for individual play infrastructure improvement projects from within the wider Unsupervised Play Infrastructure Programme will be brought forward seeking approval as part of a future report to the Cabinet. This report will be produced in due course and the intention is for there to be a further period of community engagement to seek feedback from residents, ward councillors and stakeholders on the individual play infrastructure schemes. Following the outcome of the public consultation, any necessary amendments, where applicable, will be made to the projects based in accordance with feedback received.
